

WETWALL INFORMATION

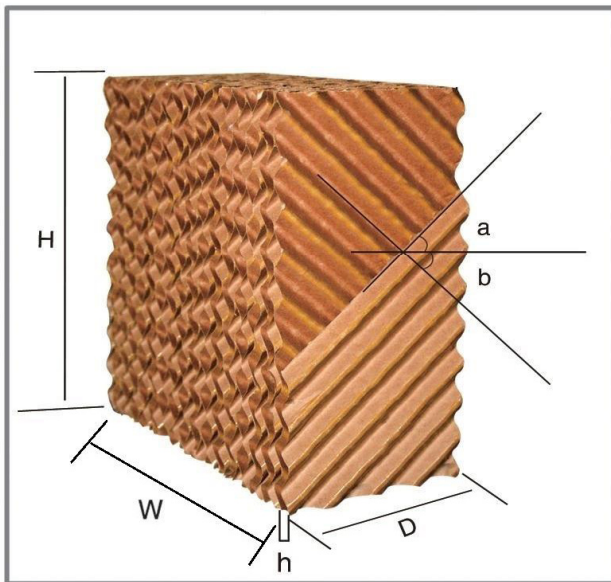

Venturatec

The wet walls come in 2,9 m "framed cooling pad" modules. Each module has its own inlet (on top) and outlet. The height of the module is 1,9 m and the thickness is either 0,1 or 0,15 m. The kit includes a water pump and a ball valve for the sump. A suitable sump must be built on site by the customer. Assembly must be done on site.

BASIC LAYOUT FOR PANEL MADE UP OF 2,9 m WETWALL PRE ASSEMBLED VENTURA PANELS. (11,6 m)
